

This Suzuki
world champion 250
costs \$15,000.

We'll sell you
the closest thing to it
for \$899.

The world champion 250 is a Suzuki RH-71.

And even if you could raise the money, we wouldn't sell it to you. We need it to go after our third straight world motocross championship.

But we will sell you a Suzuki TM-250. Which, for \$899* (plus taxes and any delivery/dealer preparation charges) is a lot less in price.

And not that much less a machine.

Because it was designed after the RH-71: so you know the TM-250 delivers.

It flies off the line. Thanks to 30 horses, a lusty 21 ft.-lbs. of torque, and only 220 lbs. of bike.

It's ready to race too. As is, out the showroom door.

Knobbys (21" front, 18" rear). Plastic fenders. High-performance expansion chamber. 5 speeds. CCI automatic lube. Racing forks and suspension.

The TM-250—it can make you what it already is: a champion.

has a nice sound...

today  **emini** knows it well

The checkered flag is the name of the game... and a new name is getting it more and more... and that name is GEMINI. In a few short years the Gemini family of mini cycles has come up fast... with its 50cc and 80cc models loaded with power tied on to rugged frame construction that won't stop... and brakes that will, gives these machines speed and power that won't quit. Today Gemini takes nobody's dust in the mini cycle field... NOBODY'S.
